Who We Are

SAFE is a California nonprofit charity.

We are a 100% volunteer organization, which means every dollar that comes in directly benefits very low income seniors.

Who We Help

SAFE is focused on providing assistance to elderly residents who qualify under the Federal and State guidelines of low income with emphasis placed on those with the following attributes:

1. Very low income
2. Below poverty level as defined by Federal and State guidelines
3. Disabled and within the guidelines above

Our primary beneficiaries are women, who were systematically denied income opportunities due to the customs of their generation; and veterans, who sacrificed their income-earning years to serve their country.

Most are from the “Greatest Generation” who struggled to provide following generations with so much more than they enjoyed.

While most civilizations take care of their elderly, our planning agencies wonder “Where can we warehouse the old people?”

SAFE’s goal is to allow this fiercely independent, yet grossly underserved, generation to remain in their homes and maintain their dignity. They deserve our gratitude and assistance.

How We Help

SAFE has been awarded over \$700,000 in Federal and private grants for major maintenance items benefiting very low income elderly. Items include new roofing, furnaces, electrical repairs, and energy-efficient windows. Such repairs are well beyond the means of these seniors. The result is that they are able to remain living independently in their homes without the fear of homelessness.

Donations are used to buy materials and supplies for our volunteers to perform smaller home repairs and improvements. We also partner with Habitat for Humanity, churches, and businesses to leverage contributions.

SAFE also provides its members with information and resources relevant to low income seniors.
